Dear Alice,

ok about the snow you are having - wish some of it was here. I am glad you are not being bothered by asthma so much.

I forgot all about ~~last~~ and it was the day after before I thought of it. did you see any specks? I didn't.

we are going to have an inspection here at the radio station tomorrow and the General will be here. - we painted our bunks yesterday and done a lot of cleaning up -

I guess you are trying to be a very good little girl on account of Xmas being so near - I think I'll be home next Xmas - hope Santa Claus brings you lots of things -

ok on the bitter. you'd better take good care of it - how is old "cubby" and Pal? - I am sending ^{back} the list of "names" checked for the bad cold like you say. It seems like Caroline is the only one who doesn't have a bad cold - Hope everybody got well - will have to close - ans. soon
lots of love, John
