Dear Mamma,

I just received the two letters that you and Alice wrote Jan. 4th. I had been wondering why you hadn't told me about Amos. I didn't know about it til J. D. told me in one of his letters.

I think I told Alice about seeing Kenneth and J. D. in Nottingham. I was with them about a day and a half. It's kind of hard for us to arrange for our passes to be all at the same time but we are going to try again soon.

Glad you and Alice got the gifts. I tried to find something in London to send to Alice but

Didn't have any luck. —

I am still getting the 'News' ok. They have my address ok now and have been getting them a little quicker. They used to be held up at my old Squadron.

Ok about receiving the M.O. — I am enclosing another one —

Well there's not much to write about. Hope you are all getting along ok. I am still doing maintenance work — I will try to write often. God told me to write once a week and I think I can do that. Will try anyway — Hope to hear from you again soon —

Love to all,
John
