Dear Russell,

Thanks for the letter - Sure was glad to hear from you. I think it was my time to write tho. I don't get around to writing very often and consequently don't get much mail.

Bill Jones is over here - Seems sort of funny to call him that - They were still calling him Willie when I saw him last. I am going to try to meet him in London next month. He didn't get to see Kenneth. I suppose you knew Kenneth was in France - I think J.D. is too.

I just got back from a furlough - Went to Edinburgh Scotland - Had a pretty good time and saw a few places of historical interest.

No I haven't heard from Bill for quite a while. I haven't written to him for a long time either because I lost his address. However in my last letter from Mama she gave me his address so I am going to write to him in a day or two. I'll bet he is getting plenty fed up with that place up there. Seems that he ought to be going home soon.

Well Russell I'll try to write to you a little often - Hope you are getting along ok. Not much news here - I'm still on the same job. ~~have~~ another letter to write tonight so will close - best of luck write the first chance you get.

your bro.
John
