Dear Dot.

Sure glad you had the chance to go home for a weekend. I didn't plan to come up the Sat. you went home. I won't know ahead of time when I can make the trip. May not make it at all.

You certainly gave me enough directions on how to find you. If I do get to come I surely won't get lost. Hi!

I have been in the field all week and will be out another.

Before I forget - I want you to send me the birthdays of all the family.

Alice's is the only one I can remember. Also would like to know the date Mom & Dad were married.

I received some Mo. County papers from home yesterday. Seemed strange to see

Bernice's name among the teachers appointed.

I wonder what Jewell's plans are since she isn't teaching?

I'm writing this on the hood of my Jeep. I have a dash compartment right under me. Makes a good field desk. I should write Bill so I'll close before it gets too dark.

The R. Digest came yesterday. I certainly enjoy it. Several of the boys borrow it. One of my best buddies is a Britisher - Born in London. His name is Newton. He is a Radio Op. He borrowed it this afternoon - wanted to read - "What the British Girls Think About the Yanks".

If you have seen only one Abbott & Costello picture you've missed a lot. They are really good. Write soon.

Love
Russell
