Dear Jewell,

Thought I had better write and give you my address.

I left J.B. a week ago today. Sure was glad to leave that place. We have fewer libertas here but ~~the~~ everyone is more civil. In the usual army outfit there is always a few non-com's who insist on using foul language as you may have guessed or heard.

That condition is just the reverse here. One reason for that is our close contact with civilians & the university.

We live in barracks just off the campus. Get our meals in a cafeteria managed by civilians. The chow is really tops. We are allowed \$1 per day for meals. That isn't taken out of our base pay. I still draw sgt's pay & will until become a cadet. Until I leave here I am an aviation student. All the ~~a~~ students here are called mister - seems odd.
