Dear Mama,

Well how is the weather up there now? I sure hope there has been some rain since I left.

You were asking about the list of his serial numbers. I gave the list to Alice and told ~~her~~ her to be sure and give it to Dad.

Things are rather dull here. Most of the battalion is on furlough. Worked at the depot to ~~day~~ today for the first time since coming back - uncrating engines.

Was just listening to the news, am on C. Q. tonight and have a radio in the orderly room, things are really moving fast in France. Maybe the European war will be over in a few months. Think I will write Mildred tonight.

Love to all

Russell
