

JEFFERSON BARRACKS
MISSOURI

Oct. 19, 1944

Dear Alice,

I was just thinking of writing you when I received your letter. Thanks for all the news - it was very interesting. I had heard about the high water through the church news letter - but nothing about what happened in Lancing (as usual).

I can't remember what I did with my football shoes. I think I gave them to someone.

Would like to see some of Sunbright football games, maybe I will be in during the basketball season if when Bill comes in.

JEFFERSON BARRACKS
MISSOURI

I am enclosing a mo. order for five.
Since I didn't send you anything
for your birthday ~~was~~ we will call
this your birthday gift.

I didn't know you were planning
to be a nurse. That's very good
but plenty of hard work. What
subjects are you taking in school?
You should take all the sciences
you can - especially chemistry.
Write again soon.

Love.

Russell
