June 12 1917

Dear Stella:-

I received a letter from you a few days ago the first in a long time. I think you will be rather surprised when I get home and show you how many I have gotten since I have been in France & Germany I have all except the first letter that I got ever here and you sent it to Camp Johnston. Well I am now on my way home left Germany one week ago last Sunday and we have been having a sickness of a time ever

since yesterday we made  
a hike of eleven miles in  
the hottest part of the day  
and believe me that wasn't  
any fun but we are on our  
way home and we will do  
about anything to get there.  
We have passed all examinations  
all O.S., and are now waiting  
for a boat so I expect to  
see you some time the first  
of next month.
